> Please fill out the following questionnaire carefully so we can select the right product for you. Please note that we can only guarantee the best choice for you if all information is completely available. If important information is missing, we will contact you. You can complement this information with photographs, 3D files, etc.

DESCRIPTION

What is the application to do? _____

_____

_____

_____

_____

	X Axis	Y Axis	Z Axis
Load [kg]			
Horizontal or vertical			
Load direction			
Load displacement (Ms/ M/Mv) [mm]			
Accuracy and Repeatability			
Course [mm]			
Speed [m/s]			
Acceleration			
Slowdown			
Duty Cycle [strokes per minute/hour/day]			
Required Life [years]			
Can the system be lubricated?			
Setting: debris, outside, washing			
Temperature and Humidity [ºC]			
Driving method: Belt, Screw, Rack & Pinion, Manual			
Selection: seems to be correct?			

Drawing / sketching / comments

Please provide a simple outline of the application (HEPCO components) showing all important directions loads, displacements and dimensions.
